TRUE SEED

TRUE VIBURNUM CARLESI SEED

At last Messrs. T. Sakata & Co.'s tireless efforts have been rewarded. They have located in Korea a few seed bearing plants of this beautiful species, heretofore generally believed sterile.

Both Dr. Ueki of the University of Keijo, Korea, and Dr. Nakai have positively identified the plants from which we hope to secure a limited quantity of seed this year. Dr. E. H. Wilson writes us:

ARNOLD ARBORETUM, HARVARD UNIVERSITY
JAMAICA PLAIN
MASS.

September 26, 1929.

Herbst Brothers,
42 South St.,
New York, N. Y.

Gentlemen:

We have critically compared the leafy Viburnum shoot and fruits which you sent with your letter of September 24th and so far as it is humanly possible to tell they represent the genuine Viburnum Carlesi

We wish that your correspondent had stated the country where this specimen was collected, but if it came from Korea any vestige of doubt vanishes.

Very truly yours,

E. H. Wilson

EHW/KK

Keeper

Subject to crop, we quote:

$15.00 per ¼-lb. when ordered alone.
$10.00 per ¼-lb. when ordered in conjunction with your other Tree Seed needs.

We will gladly furnish our complete price lists on request.

All offers appearing in this list are made subject to the terms and conditions of our printed catalogue.

Yours very truly,
HERBST BROTHERS
As agents for T. Sakata & Co.
